

# NWALLT/SWALLT CONFERENCE 2010

## Sustainable Language Learning Technology

Friday and Saturday, October 15-16, 2010  
Reed College, Portland, Oregon

How can we use the ever-changing array of technological tools and services to facilitate lasting, meaningful language learning? How do we decide which emerging technologies are worth the investment of time and energy? How can we work together to make the most of our limited resources? Join us in the beautiful Pacific Northwest to talk about these and other current issues in language teaching and learning with technology. This conference will be of interest to anyone involved in language teaching or language center management, either at the K-12 level or in higher education. The program will include presentations, panel discussions, workshops, and a poster session, as well as plenty of opportunities for casual conversations.

We welcome proposals for individual or joint presentations, panels, workshops, and posters that showcase technology-enhanced language learning and teaching. NWALLT or SWALLT membership is not required to submit a proposal or to attend the conference; everyone is welcome!
